4. Of the art mentioned in paragraph 3 above, it is believed that the most possibly relevant art is found in Lee et al., US D364556; Cline, US D418403; Smeja et al., US 5471799 and US 5901507; and in the Snow Brakes snow guards found in the Berger Building Products brochure.

5. This information is provided in accord with the Applicant's duty of disclosure under 37 CFR 1.56, and for the convenience of the Examiner. However, unless otherwise indicated, provision of the present information is not itself an admission that the cited art is applicable or relevant to the present claimed invention under the meaning of 35 USC 102 and/or 103 and the doctrine of equivalents. The full range of equivalents is asserted hereby. Furthermore, the Applicant(s) reserve(s) the right to contest enablement, as may be appropriate, and/or any nominal publication date of any cited art. All other rights are reserved.

6. Clearly, such information alone does not anticipate, nor does any of it alone or in combination with any other reference cited by the present paper or other reference of record render obvious, the present claim(s) of the instant invention.

7. Please indicate consideration of the cited art on the Form PTO-1449, and return a copy of the inscribed form with the next Office action.

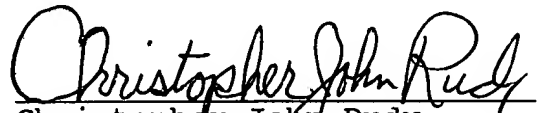

8. A Notice of Allowance is solicited.

Respectfully,

MICHAEL J. MULLANE
